Skills

Programming: Java, JavaScript, HTML, CSS, MVC

Tools/Frameworks: React.js, Bootstrap, Git

Soft Skills: Communication, Teamwork, Adaptability, Time Management

Work Experience

Software Developer Intern | Nutshell Infosoft Private Limited

Jul 23 – Dec 23

- Contributed to Java application development with a focus on both front-end and backend components.
- Engineered responsive and interactive user interfaces by integrating HTML, CSS, JavaScript, and ReactJS technologies.
- Resolved issues promptly by troubleshooting and implementing effective solutions to ensure smooth software functionality.
- Executed code reviews to ensure adherence to coding standards, best practices, and maintainability.

Projects

Planner Ease - Event Planner Web Application

Technologies and Tools: Java, JavaScript, React, SQL, Hibernate

Planner Ease is a web application to simplify event planning using Java & React.

- Used Java and Spring Boot, JDBC for a secure login system for both users and admin. Users can create new accounts securely.
- Authorised user can browse, select and customize events. Integrated a feature allowing users to choose vendors tailored to their selected events.
- Developed a robust notification system enabling users to receive real-time updates on bookings, events, and invitations directly within the dashboard, showcasing adept problem-solving skills and fostering seamless collaboration.

Chit Connect - Lan Chat Desktop Application

Technologies and Tools: Java, Java Swing, Socket Programming, Multithreading, Java AWT

LAN chat desktop app enabling direct connections, secure file sharing, and remote desktop for enhanced collaboration.

- Co-ordinated and delivered direct connection feature for users to join by IP address, emphasizing fast-paced development.
- Designed and made secure file sharing capabilities, focusing on accessibility and best practices to enhance collaboration.
- Delivered remote desktop functionality for work, emphasizing collaborative development and debugging efforts.

Dairy Hub - Milk Dairy Management Application

Technologies and Tools: .NET, MySQL

A desktop application using .net where owner can track all the records of milk and payments.

- Implemented a feature for calculating daily milk intake, slashing paperwork by 80% and ensuring precise tracking and reporting for efficient dairy management.
- Developed a system where owner can create, delete, edit accounts for every farmer who supplies milk to the dairy.

Education

K.K. Wagh Engineering Education and Research, Nashik

2021 - 2023

- MCA | *Aggregate: 70.92%*

RNC Arts, JDB Commerce & NSC Science College

2018 - 2021

- BCA | *Aggregate: 63.88%*

Certification

- **Java, Web Designing, ReactJS** - TechnoKraft Training and Solutions
- **SQL** - Spoken Tutorial

Positions of Responsibility

Class Representative | MCA

2021 - 2023

- Led project presentations as the MCA class representative, focusing on fostering effective communication and collaboration among team members.
- Organized and coordinated class activities, events, and meetings, ensuring participation and engagement from students.
